Substitute for Calomel; as a Cathartic in Fevers and all ... Billions Affections.

MIESE popular Pills being a combination of a newly discovered Akaline substance, extracted from the TOMATO PLANT, with ather vegeta substances which have been found to modify and diffuse its effects, are believed to be the best Allerative and Cathartic Medicine everoiscovered. They have been abundantly and successfully tried, and have received universal appropraison for Scrolula, Dyspepsia, Jaundice, Billions Disc ses, Gravel, Rheumalism, Coughs, Colds, Influence, Calarri, Nervous Discases, Acid Simmache, Glandular Swellings of all kinds, Costiveness, Cholic, Head

They are an antidute to Postagious and Epidemic diseases; prevent the formation of Billious and Liver affections Fever and Ague, &c., in those who reside in hot climates, and low and marshy countries, and are the best Cathartic that can be used for those buckliffer. Seenien will find them an intallible remedy for the Scurvy; and Travellers, he best modifine they can use to counteract the dangers of exposure in unhealthy climates. For ordinary Family Physic, they are universally approved. as the best ever offered.

These Pills have a powerful and relutary opera-lyn upon the Glandular System, removing all ob-structions from the Gland, wherever situated, Scir-estics and the obtains Tables in all their forms, and if persevered in, no case of Scrotella, however, se-vere, can resist its influence. It is in their operation on the Glandular Bystem, that their effects are an possible and potentiand so meanly rescutife that of Calomel. In fact, the Tomatine has all the Alterative Deobstruent and Cuthartic properties of Calomet, without ever producing unpleasant or injurious offoots under any circumstances, either from exposure to cold or wet, on the contrary, the Com-pound Tomato Pids are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of thom the system, and renovating the constitution broken down by its use; which it does by correcting the state of the blood, and through that, correcting the morbid secretices of the glauds, and restoring them to a healthy their own proper action. Its effects are analogous to Sarsaparilla and Blood Rout, and in its combined action in the ingredients communing the Pills is exerts a universal action peculiar to itself.

The peculiar virtues of the Pomato Plant, have tor a long time attracted the attention of the Medical profession and the Public, and a hyply interest has recently been directed to the future developement of its active powers, and its Antibilious and Alterative qualities; which the Proprietor is now theppy in being able to gratify and presents his !! I'm be the Public, with the full conflidence of their being the most safe and valuable remedy ever discovered adapted to all cases where nature is disturbed, and when any of the functions do not per-

form their natural or healthy action.

Numerous certificates of cures, from those who have taken them, and the testimony of several Physcians who have prescribed thom, all concur to corwoborate this opinion. The rapidly increasing demand for, and the universal appropriation bestowed upon them, is an additional evidence of their mer-ત્તક and usefulness.

In presenting this article to the public, the Proprietor was induenced by the hope that a medicine prepared with much care, and siciet regard to the mently this distressing companie. Mct. EOD CURRESPONDENCE.

Among the documents accopanying the Presideal's to the Tell-Mart Mr. Fox to Mr. Webster, demanding, in the paine of the government; the Immediate release of Mcf end; and the answer of the Secretary of Units. We regret that we have not space for possible, perhaps in regard to the United States, their documents complete, but we give an abstract prepared by the New York Tattler emstruct prepared by the New York Tattler, eusbodying all the giaterial points. The Acitish Minister's letter dated March 12, states that his movements in the premiers have been fully approved by his government, repeats the oft-repeated argument that McLeod cannot be held. personally responsible for the acts of his govern-

Her Majesty's Government (apys Mr. Fox) annot admit for a moment the validity of the doctrine advanced by Mr. Foreyth, that the Federal government of the United States has no power to interfere in the matter in question, and that the decision thereof must rest solely and en-

irely with the State of New York. With the particulars of the internal compact which may exist between the several states that compose the Union foreign powers have nothing to do ; the relations of toreign powers are with the aggregate Union; that Union is to them represented by the Federal Government; and of that Union the Federal Government in to them the redress to demand for a wrong done to it by any State of the Union, it is to the Federal Govern ment, and not-to the separate State ; that such power must look for redress for that wrong. And such foreign power cannot admit the plea that the separate State is an independent ber over which the rederal Covernment has no con-

It is obvious that such a doctrine, if admitted would at once go to a dissolution of the Union concerned; end that foreign powers in such the correspondence of the New York Tribune, the federal Government, would send such agents not to that Governmet, but to the Government tory of the Republic, to show the sincerity with of each separate State; and would make their relations of peace and war with each state depend upon the result of their paters intercourse with such State, without reference to the relations they saight have with the rest.
Rer Majosty's Government formally demands

through its Minnster, the release of McLeod. The Minister then proceeds to say that there are the strongest reasons to believe that McLeod was not concerned in that affair : and that the the circumstances make no difference in the palitical and international question at issue, the Government of the United States must not die guise from themselves that the fact that McLeod was not engaged in the transaction lovet decat. enty tond greatly to inflance that national recent entire a high any harm that shall be authored by Mr. Mar and at the hands of the authorities of the serie of New York wiff mailibily excite throughout the shole of the British Empire.

The Government of the United States dues net think that the Caroline affair oun be justified by any reasonable application of the right of sett defence under the law of nations. But not nate ing been advised of the reasons under which the British Government considers the attack justifiable, the Secretary earnestly conswing the extended discussion of the question.

After alluding to the term " permitted," used by Mr For in reference to the organization of force in the United Summ and alting that the President is willing to believe, no intimation is intended that the U.S. Government afforded any connienance to the atta of the Patriols. The Secretary proceeds to remark that upon a line of frontier long enough to divide the whole of Europe into ha ves, that are pulstiffer, Niceors, and conflicts should sometimes occur, equally against the will of both Gavertine its. is see lainly easily to be supposed. This may be more keeping up of large standing armies in time of peace, and their cituation happily exempts them from the necessity of maintaining such expengive and dangerous votablishments. This Coneroment acknowledges no delinge ney in the

performance of its duties. The letter takes exception against the term 'pirates,' as applied to the American volunteers, and says that though they were already violatng the laws of their country, they were certainly not pirates, nor dues the undersigned think that it can advance the purpose of fair and friend ly discussion, or hasten the accommodation of national difficulties, so to denominte them. Their offence, whatever it was, had no analogy to cases of piracy. The fact that for the last two centuries, subjects of the British erown bave been permitted to engage in foreign wars, and the recruiting of .. bole regiments for the Spanish service, openly in England is forcibly sllud ed to; and yet it has not been imagined that England at any time allowed her subjects to

The Government of the U. S. bas not, from only organ. Therefore, when a foreign power has the first, failen into the doubte, elsewhere entertained, of the true extent of the duties of neutrality. It has held that, however it may have con in less colightened ages, the just interpretation of the modern-law of nations is, that neutral States are bound to be atricily neutral; and that it is a manifest and gross impropriety for individuals to engage in the civil conflicts of other States, and thus to be at war, while their Government is at peace. War and peace are JUNE 5, received and for sale by high national relations, which can properly be established or changed only by nations thems selves,

After quoting instances from the which the United States have carried out the principle above stated, the letter of Mr. Web ster thus concludes .

"Under these circumstances, and under these immediately we nuccied with the transaction itghow upon what state of facts, and what rules of national law, the destruction of the Caroline' is to be defended. It will be for that Government to show a necessity of zelf defence, instant, overwhelming, leaving no choice of means, and no moment for deliberation. At will be for it to show, also, that the local authorities of Ospada; even empacing the serestity of the the moment suthorized them to enter the territories of the United States at all, did nothing unressonable or excessive; since the act, justi fied by the necessity of self-defence, must be limited by that necessity, and kept ofearly with

Correspondence of the Na You - Kapreas Jung 3. The House after an unimportant, but yet interesting debate, relating to the right of pelition, adjourned over from Thursday lift Monday wat, to ATTER THE BACKS. Therecould have teen no other object for such's long adjournment, and it, therefore, must have been this, as there is to be to morrow a very exciting race, which highly interests many of the Mainbers of Congress.

The Report of the Secretary of the Treasury was presented in the House, a hich will highly interest all regiders, warmiy urgan the establishment of a fiscal agent, by which he means, no doubt, un United Bietes Bunk. Ine proposition of Mr. Wise, to creste a Special Committee on the subject of a Bank, would befurfits put himat its head, if it is adopted, of which, in its present form, there is some doubt ...

The Casaker is supposed to be eraployed in framing his Committees, and without a doubt, Mr. Cushing, of Massachueetts, will be at the head of some one, a grace to which he we mushing entitled.

DA. SMARS ONIVERSAL SAN-GUINARTAN---C BLOOD-ROOT PILLS.

Tavif E preience that any medicine is nearly an "iniallible cura" for all diseases " that fight is hoir to." whatever their character; is a flagrant imposition upon the public confidence; and a most wicked outrage upon the generous aympathy that suffering harming justly demands of us. Yet the very frequency and holders of these improus freuds so emineutly cruel to the unfortunate, furnish solid ground for presenting the cubic a remedy that may be intelligently appreciated and relied upon. That powerful medicinal agent, the Blood Root, is the had of the Universal Sanguinering Pills; and all the materials are drawn from the Vegetable Kingdom the grand source of support to animal existence. But in the combination, the sufferent ingredients up so blended and modified as to give the compound a remarkable advantage over the simples, and it is believed over all other medicines. When is is considered that nearly all diseases, chronic and acute, are connected with a disordered action of the stomach and howels, and that in most instances, this is superinduced by disorder of the Hile, or Gall, which is the natural physic of the arxinen. and when it is farther coordered that that Pills net with singular power upon these many organs, and through them upon the blood and entire physical economy, soher reason much justify the assertion, that this valuable discovery furnishes a remedy of rare efficiency in all curable cases of disease; and this deduction of reasen is should utly carroborated by experience. This medicine harmonizes with the laws of life, hispices and strengthens nature, and works its wonders, hy generously exerting her on tirk it. whent so it with the obtrustive agents of disease. Chest, Lungs and Liver.

The Roah and Liverwort, and Pleurisy Root have for centuries been celebrated in the cure of diseases of the Lungs and Liver. Dr. B. D. Allen, after a series of experiments.

has been able to extract to m there market a balaum, which exerts a nost wonderful effect in curing Consumption and Liver Complaint, and aff other diseases of the Lungs and Chest. Be great bas become the reputation of Dr. Alten's Balsam that it is now used in the New York, Philadeladelphia and Battimore Hospitals and in the private practice of our most emitted medical men.

For children laboring under Laftammation of the Lungs, Colds. Coughs, Croup, Quincy, and Sare Throat this Balsam is of great importance. The number of deaths among children from these diseases is truly alarming. It parents wish to save the lives of thereehildren, and themselves much trouble, anxiety, and expense, let them procure Dr B. D. Allen's Balsam; and whenever a child has taken cold, has any fever, sough, or hoursoness. give p teaspoonful of this medicine, and repeal it if ne-cessary; even one traspoonful will often effect an entire cure. During the winter of 1839, rising of one thousand families employed this remedy in the city of New York. The consequence was that the number of deaths among children - as-reduced to iess than one half the usual number, as may be seen

by the city inspector's report of deaths.

In order to give the reader some idea of the efficacy of this Balsam, and how extensively it is used, we here introduce the mountdy report of the cures it performed in the month of May. 1839, as furnished us by the agent, and published in the N York Sun

"Monthly Report of the cures performed by Dr. B. D. Allen's Balsonr of Hoarhound, Liverwort, aild Pleurisy Root during the mouth of May. J aild Pieurisy Root during the cure of last cured and completed the cure of
